# Man of Fire

Prometheus is a Titan, who, in Greek mythology, is credited with the theft of fire for human use, an act that enabled progress and civilization. He is known for his intelligence, and as a champion of humanity.

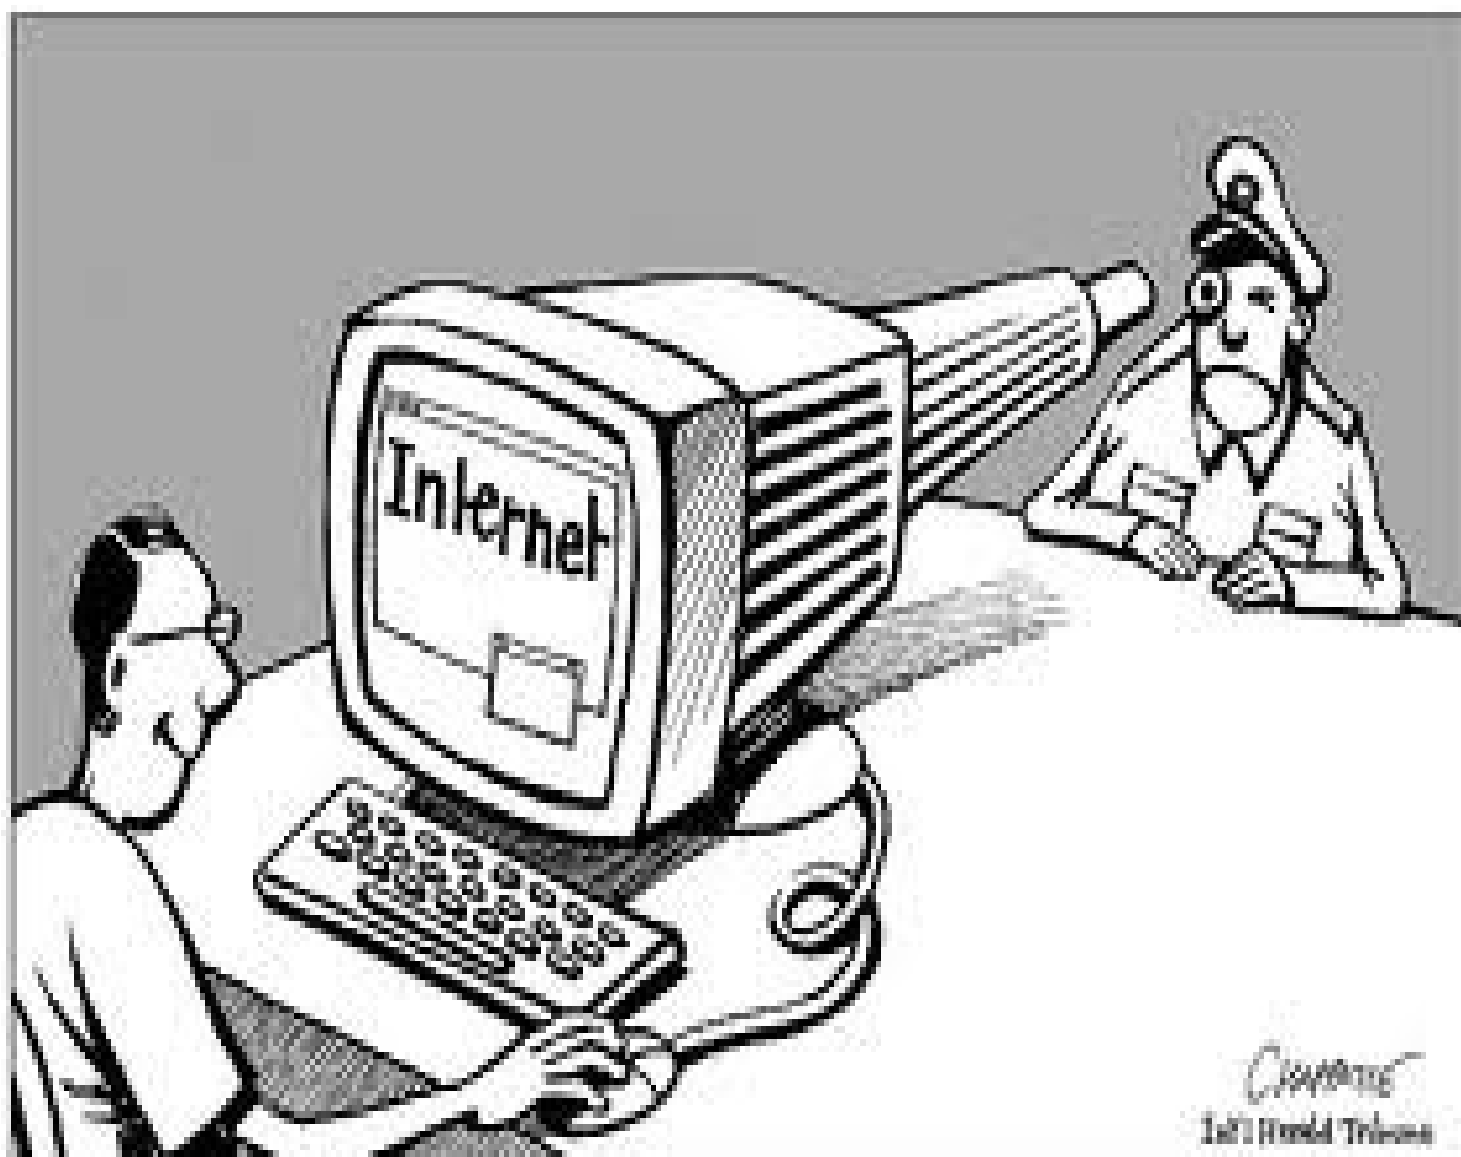

The punishment of Prometheus as a consequence of the theft : Zeus, king of the Olympian gods, sentenced the Titan to eternal torment for his transgression. The immortal Prometheus was bound to a rock, where each day an eagle, the emblem of Zeus, was sent to feed on his liver, only to have it grow back to be eaten again the next day.

For the US government, this was therefore a test case of how far the Computer Fraud and Abuse Act could be stretched and the government's ability to prosecute hackers.

Freedom of the Internet is a welcome goal everywhere, but not in the US.

Remember how vigorously the US “fought” for Internet freedom in the recent ITU conference in Dubai?

# Fsmk – meet the brats !

What does technology mean to you

Is it just a means to become a  
'software clerk'

What does it mean to the ordinary  
people in this country

If you are young, If you have a skill –  
techie, artist, campaigner

If you have hacking spirit

You can join the fun guys at fsmk  
Be a little but naughty

YOU CAN INTERVENE

# Aaron and Questioning

If you are in the tech sector – why are you there?

Do you really think technology is making the world a better place. Why do you believe that.

Do you really understand what makes the world a bad place to begin with.

Have you ever listened to the people technology helps or Hurts

What you do – does it change the world

He has a deep shame in lying.

He had a deep shame in believing the world is changing. Than actually changing it.
